Computer Science undergraduate at Universitas Indonesia seeking a software engineering internship. Builds web and mobile applications with Django, Flutter, and Spring Boot. Lead Programmer at RISTEK Fasilkom UI and Teaching Assistant, with award-winning team game projects.

EDUCATION

Universitas Indonesia — Computer Science 2024–present

Undergraduate, Faculty of Computer Science · GPA: 3.77/4.00

TECHNICAL SKILLS

Languages: Python, Java, C++, C#, Dart, JavaScript, HTML, CSS, SQL

Frameworks & tools: Django, Spring Boot, Flutter, Godot, Unity, PostgreSQL, SQLite, Git, GitHub, JUnit, Postman, Figma, Tailwind CSS, Node.js

SELECTED PROJECTS

TemuCoach — Full-stack developer

- Contributed booking, authentication, and chat to a team football-coaching platform with Django JSON APIs and a Flutter mobile client.
- Connected web and mobile flows, with polling-based chat refresh and network error handling.

JSON — Software engineer, team project GitHub source

- Built wallet transactions, concurrent balance safeguards, refunds, and settlement tests for a jastip marketplace using Java 21, Spring Boot, and PostgreSQL; contributed to the frontend, monitoring, and CI.

Pacil Explore — Game developer, team project ristek-game-development.itch.io/pacil-explore

- Developed a Godot educational game for Open House Fasilkom UI, played onsite by 300+ high-school students.

EXPERIENCE

Lead Programmer — RISTEK Fasilkom UI Mar 2026–present

- Lead a small Godot game-development team, manage task distribution, and guide project direction across multiple initiatives.

Teaching Assistant — Programming Fundamentals 1, Universitas Indonesia Aug 2026–present

- Support first-year students through programming labs, assignment assessment, and technical feedback.

Teaching Assistant — Programming Fundamentals 2, Universitas Indonesia Feb–Jun 2026

- Guided first-year students in programming and problem solving; assessed assignments and provided feedback.

Game Developer, project-based — MR.DIY Indonesia Feb 2025

- Delivered Panda Tangkap Berkah, an interactive mini-game for the flagship-store launch at Summarecon Mall Bekasi.

SELECTED RECOGNITION

1st place — GameVidia, ARKAVIDIA 10.0 · Cards, Camera, Action! 2026

2nd place — Necronomi-jam, VIVERSE track · The Phare 2026

Top 4 — GAMESEED · Sukebat 2026

Finalist — GEMASTIK XIX, Game Application · Nyaris Menang 2026

Honorable Mention — ICPC Asia Jakarta Regional · International 2024

Finalist — GEMASTIK XVIII, Game Application · Inspektur Inklusif 2025

3rd place, Best Game — GIMERSIA Inspire · Nail Bound 2025

43rd place — ICPC Indonesia National Contest · National 2024

3rd place — OSNP Informatika · Provincial stage 2022, 2023

1st place — OSNK Informatika · City/regency stage 2022, 2023
